Lux Brut

Spanish Sparkling Luxury Wine

Lux Brut is not a Cava but a sparkling wine from the Spanish Penedès.

Belgian Chef Jess Van Weert calls it “My own flavour in contradiction to some cava regulations” because he added for instance some flavours of Gewürztraminer, a grape that is not allowed to be used in an official cava.

Moreover the production process of Lux differs from a traditional cava, which results in a unique product from this region.

Lux Brut is created by the Charmat method, a fast and efficient way to produce a sparkling wine, so that the natural primary quality of the grape is maintained.
